PROFESSIONAL SUMMARY

Flutter Developer with 1.5 years of experience building cross-platform mobile applications, with a strong focus on fintech solutions. Hands-on experience developing secure and scalable features, integrating REST APIs, and creating smooth, user-friendly mobile experiences. Proficient in Flutter, Dart, and state management using Riverpod, Provider, and GetX, along with Firebase for backend services. Comfortable working in Agile teams, collaborating with designers, QA engineers, and backend developers to deliver high-quality applications. Passionate about writing clean, maintainable code, solving real-world problems, and continuously learning new technologies to build better mobile products.

SKILLS

- Flutter
- Dart
- Firebase
- C Programming
- mySQL
- Restful APIs
- Riverpod
- Provider
- Getx
- Git
- Clean architecture
- MVVM
- FlutterFlow
- Jira
- Bitbucket
- Trello
- Api integration
- Responsive Ui
- Unit testing
- JSON Parsing
- Dio, HTTP
- Autoroute
- Code generation
- Figma

PROFESSIONAL EXPERIENCE

OMNICORE DIGITAL SOLUTIONS

Silicon Oasis, Dubai

FLUTTER DEVELOPER (Digital Banking) — August, 2025-August,2026

- Developed and maintained secure, high-performance Flutter applications for fintech products, delivering seamless cross-platform experiences.
- Integrated RESTful APIs for financial services, ensuring reliable and secure data exchange.
- Implemented scalable state management using Riverpod to improve application maintainability and performance.
- Collaborated with cross-functional teams, including UI/UX designers, backend developers, and QA engineers, to deliver production-ready features in Agile sprints.
- Optimized application performance, resolved bugs, and enhanced user experience through continuous improvements and code refactoring.
- Integrated Firebase services for notifications, and analytics where required, while following secure coding practices.

SOFTRONIICS

Calicut, Kerala

FLUTTER INTERN — August, 2024-January,2025

- Developed and maintained cross-platform mobile applications using Flutter, delivering responsive, high-performance user experiences across Android and iOS.
- Designed and implemented intuitive, user-friendly UI/UX by translating Figma designs into reusable and maintainable Flutter widgets.
- Integrated Firebase services, including Authentication, Cloud Firestore, and Realtime Database, to support secure user authentication, real-time data synchronization, and backend functionality.
- Gained hands-on experience in Flutter full-stack development by building end-to-end features, integrating REST APIs, managing application state, and collaborating with backend services.

PROJECT

Dukhan Bank – Retail Banking Mobile Application

Contributed to the development of a secure retail banking application for one of Qatar's leading banks using Flutter. Built and maintained scalable banking features by following Clean Architecture and Riverpod for state management, while collaborating with cross-functional teams to deliver secure, high-performance mobile solutions. Technologies: Flutter, Dart, Riverpod, Clean Architecture, REST APIs.

VistiQ

Developed a Flutter-based residential community management app that enables residents to manage visitors, track package deliveries, receive community announcements, and access emergency features, enhancing security and convenience. Technologies: Flutter, GetX, Firebase, Figma.

Heyo

Developed a real-time chat application using FlutterFlow with Firebase Authentication and Cloud Firestore, enabling secure user login and instant messaging with real-time data synchronization. Technologies: FlutterFlow, Firebase (Authentication, Cloud Firestore).

EDUCATION

Diploma in Computer Engineering
Kerala Govt. Polytechnic College, Calicut — 2021-2024

STATE 12th in Biology Science
Govt. VMC GHSS Wandoor, Malappuram — 2019-2021
